

REMARKS

Amendment to the Title

The Applicants have amended the title of the present application to 'System and Method for Frame Image Capture.' The Applicants note that the present amendment corresponds to 37 C.F.R. § 1.72(a) and MPEP § 606 in that the title of the application is "as short and specific as possible." 37 C.F.R. § 1.72(a). No new matter is introduced as a result of this amendment.

Amendment to the Summary of the Invention

The Examiner objects to an informality in the specification, page 2 of the application, where "are not" is stated twice consecutively. *Office Action*, 2. The Applicants have replaced the paragraph as filed with the new, replacement paragraph set forth above. The Applicants believe this new, replacement paragraph corrects the informality noted by the Examiner and believe the Examiner's objection to have been overcome. See *Office Action*, 2.

Claims Objections

The Examiner states that the "Examiner is unable to figure out the set of claims to be examined in this application." *Office Action*, 2. The Examiner notes that "[c]laims 23-50 of the instant application filed on 12/17/04 look similar to claims 23-54 of pending application with US serial number 10/753,702. According to the PTO record, another set claims 23-42 were filed on 01/12/04." *Office Action*, 2-3.

The Applicants are submitting a copy of the claims to be examined in this application. These claims are the same claims 23-42 filed on 01/12/04. The claims 23-50 filed on 12/17/04 are from a co-pending application (U.S. Serial No. 10/753,702) and

were submitted to the Examiner as part of an Information Disclosure Statement submission, not as amendments to the present application. With this clarification, the Applicants respectfully contend that the Examiner's objection is overcome.

CONCLUSION

The Applicants have amended the title to 'System and Method for Frame Image Capture.' No new matter is introduced as a result of this amendment.

The Applicants have amended the specification to remove an informality and overcome the Examiner's objection. The Applicants have submitted an explanation regarding the claims in the present application.

No other rejections remain outstanding in the present *Office Action*. As such, the Examiner is respectfully requested to pass the present application to allowance.

The Examiner is encouraged to contact the undersigned with any questions and/or to expedite any remaining formal matters that might otherwise preclude accelerated allowance of this matter.

Respectfully submitted,
Joseph Salesky et al.
